

CLASS-VII CHAPTER ATMOSPHERE

- 1) Define atmosphere.
- 2) What is the composition of atmosphere?
- 3) 3 factors on which atmospheric pressure depends.
- 4) Different layers of atmosphere.
- 5) Characteristics of the different layers of atmosphere.
- 6) What is global warming?
- 7) Causes of global warming.
- 8) Impact of global warming.
- 9) States to prevent ozone depletion.
- 10) Causes of ozone depletion.
- 11) How temperature and altitude is related to the change of atmospheric pressure?

(INCLUDING THE EXERCISE QUESTIONS)
